Mature Coconut

Description:

Origin: Indonesia

Weight: 1.2 – 2.5 kg per nut

Shell color: Brown (husked) or green/yellow (unhusked)

Meat thickness: Thick and firm (8–12 mm)

Water content: Less than young coconuts (~100–200 ml)

Oil content: High (used for producing virgin coconut oil or copra)

Harvest age: 11–12 months after pollination

Young Coconut

Description:

-  Origin: Indonesia
-  Weight: 1.0 – 2.5 kg per coconut (depending on maturity)
-  Water content: High, especially in young coconuts (up to 300–500 ml)
-  Meat texture: Soft and jelly-like in young coconuts, firm in mature ones
-  Taste: Naturally sweet and refreshing
-  Harvest age: Around 6–8 months

Thank You!
